

Explanatory Memorandum to The Civil Enforcement of Parking Contraventions (County Borough and City of Newport) Designation Order 2019

This Explanatory Memorandum has been prepared by the Department for Economic Infrastructure and is laid before the National Assembly for Wales in conjunction with the above subordinate legislation and in accordance with Standing Order 27.1.

Minister's Declaration

In my view, this Explanatory Memorandum gives a fair and reasonable view of the expected impact of The Civil Enforcement of Parking Contraventions (County Borough and City of Newport) Designation Order 2019. I am satisfied that the benefits outweigh any costs.

Ken Skates
Minister for Economy and Transport
6 June 2019

1. Description

The Order will enable Newport City Council (“the Council”) to enforce civil parking restrictions within the County Borough and City. It will apply to all public highways except those listed in Annex A below. Non-endorsable offences, such as parking on double yellow lines, would become civil enforcement matters for the local authority as opposed to being enforced by the Police as criminal offences. The enforcement duty would in practice pass from Gwent Police to the Council and from traffic wardens to civil enforcement officers (“CEOs”) employed by the Council.

2. Matters of special interest to the Constitutional and Legislative Affairs Committee

None.

3. Legislative Background

The powers enabling this Instrument to be made are under paragraph 8(1) of Schedule 8 and paragraph 3(1) of Schedule 10, to the Traffic Management Act 2004 (the “Act”). This gives a local authority the power to enforce parking restrictions within their area under a civil regime set out in the Act. This power has been vested with the Welsh Ministers by virtue of section 162 of, and paragraph 30 of Schedule 11 to, the Government of Wales Act 2006.

This instrument follows the negative procedure.

4. Purpose and intended effect of the legislation

Currently in the County Borough and City of Newport the Gwent Police enforce parking restrictions. This takes time that could be better utilised tackling other criminal activities. This Order will allow for the enforcement responsibility to pass from the Police to the Council thus enabling the Council to enforce civil parking restrictions within the County Borough and City. Under this system non-endorsable offences would become the subject of civil recovery procedures. The Council would be able to issue penalty charge notices where, for example, a vehicle has been parked on double yellow lines or has not paid a parking charge in contravention of a traffic order. Reduced charges will apply where payment is made within a prescribed period. The Council would like to set their penalty charge at £70 for higher level contraventions and £50 for lower level contraventions, discounted to £35 and £25 respectively for early payment. The Council would also be able to immobilise such a vehicle, although it has stated that these powers will be held in reserve and they have no plans to use them at the start of civil enforcement.

The Council have stated that it has no immediate plans to apply for powers for moving traffic contraventions or bus lane enforcement.

If the legislation were to be annulled the Council would be unable to implement the power to enforce civil parking restrictions. They have requested these powers with the full support of the Gwent Police. Their implementation will relieve the Gwent Police from these duties thus freeing up valuable Police time and resources to tackle other criminal activities.

This Instrument has a coming into force date of 1 July 2019 as requested by the Council. The self-financing nature of this scheme should mean that the Council can devote more resources to parking enforcement than the Gwent Police, who, with their many other more pressing duties, have often been unable to do so. Better enforcement reduces congestion caused by drivers searching for on-street parking places, and results in better turnover of on-street spaces, as drivers become less willing to overstay as the risk of getting a ticket increases. In addition, greater enforcement of on-street parking restrictions should lead to increased usage of paid parking spaces, particularly off-street.

Unlike the clamping of vehicles in private car parks, clamping in relation to the civil enforcement of parking is regulated under the Act. The immobilisation of vehicles must adhere to The Civil Enforcement of Road Traffic Contraventions (General Provisions) (Wales) Regulations 2013 (SI 2013 No. 362) and The Civil Enforcement of Road Traffic Contraventions (Guidelines on Levels of Charges) (Wales) Order 2013 (SI 2013 No. 1969), which define when and how an immobilisation device may be fixed to a vehicle, and the charge payable for its release.

Enforcement will be carried out by CEOs. The Council can directly employ these CEOs or they can be an employee of a contractor appointed to undertake such activity. It is a matter for the Council to decide whether civil enforcement operations are undertaken by employees of the Council or by authorised staff of contractors. Either way the requirements of the above Regulations must equally be met in each case. The Council have confirmed that they will undertake civil enforcement operations themselves but in order to reduce costs associated with the administration of civil parking enforcement, the Council intends to partner with Rhondda Cynon Taf County Borough Council ("RCTCBC") to produce the necessary forms, notices, letters, etc.

Drivers receiving a Penalty Charge Notice from a CEO will be able to challenge it by making representations to trained officers employed by RCTCBC, acting under the direction of the Council. Independent adjudication for drivers who are unhappy with the Council's decision will be provided by the Traffic Penalty Tribunal.

5. Consultation

The Council consulted with all the relevant stakeholders in July 2018. A list of the consultees and responses is at Annex B. Full details of the consultation are included in paragraph 8 of the Regulatory Impact Assessment.

REGULATORY IMPACT ASSESSMENT

6. Options

Option 1: Do Nothing. If the legislation were not made the Council would be unable to implement the power to enforce civil parking restrictions in 2019. The Council has requested these powers with the full support of the Gwent Police. Their introduction will relieve the Gwent Police from these duties thus freeing up valuable Police time and resources to tackle other criminal activities. There could be criticism for using Police resources for parking offences when they could be better utilised dealing with other criminal activities.

Option 2: Implement the provisions with effect from 1 July 2019. Making the legislation would allow the Council to implement the power to enforce civil parking restrictions thereby freeing up the Police to deal with other criminal matters. Full consultation as described below has been carried out to ensure that no specific group will be discriminated against by the legislation.

7. Costs and benefits

a) Costs

Option 1 – Do Nothing.

If the provisions are not implemented the costs will remain with Gwent Police who, due to more pressing duties, will be unable to devote sufficient resources to tackle the identified contraventions that the Council could if taking over these powers. Gwent Police advised the Council that their traffic warden service would be withdrawn as from 30 June 2019 meaning there would be little if any on-street enforcement taking place.

Option 2 – Implement the provisions from 1 July 2019.

There are no financial implications for the Welsh Government or other local authorities in providing a local authority with civil enforcement of parking contravention powers

The costs of the scheme will be borne by the Council in collaboration with RCTCBC. The Council has expressed confidence that the full

financial impact of operating civil enforcement of parking as a whole has been considered and accounted for in their budget setting process. The forecasted operational cost of civil enforcement takes account of the estimated revenue raised from the issuing of Penalty Charge Notices. The Council has provided funding to cover the start up costs of the scheme. A full 5 year projected financial assessment by the Council can be found at Annex C.

The Council would like to set their penalty charge at £70 for higher level contraventions and £50 for lower level contraventions, discounted to £35 and £25 respectively for early payment. Drivers receiving a penalty charge notice will be able to challenge it by making representations to the Council. Independent adjudication must be available to drivers who remain unhappy with the Council's decision. The Traffic Penalty Tribunal will provide this service.

b) Benefits

We have identified the benefits for each option as follows:

Option 1 – Do Nothing.

There are no benefits.

Option 2 – Implement the provisions from 1 July 2019.

The current need for parking, particularly within town centre areas is placing significant pressure on some on and off street parking areas. The Council recognises that it is important to improve the enforcement of parking in town centres and to improve the current operation of the network by removing illegal parking on-street to allow free-flow of traffic through towns.

The Council state that the successful acquisition of civil parking enforcement powers has the capacity to directly improve the social, economic and environmental well-being of the residents and visitors to the City and County Borough and contribute to the Council's Well-being Objectives and Well-being Goals by (amongst other things) the following impacts -

- Promote the expeditious movement of traffic and as such have a positive impact on traffic congestion reduction;
- Reduction of costs to business, residents and visitors to the city associated with travel congestion and parking contraventions;
- Reduced carbon emissions through reduction in congestion and expeditious movement of traffic through our Air Quality Management Areas;

- Promote active travel (walking and cycling) throughout the City;
- Promote highway safety;
- Promote well connected communities through reduced vehicular obstruction and inconsiderate parking;
- Defuse community frustration at the current levels of contraventions that are not being addressed due to the Police withdrawing from parking enforcement;
- Capacity to be able to deploy reactive enforcement officers to black spots that are known to create community tension i.e. outside schools and resident parking areas;
- Delivering new employment opportunities with the City; and
- Promoting well connected communities through reduced vehicular obstruction and inconsiderate parking.

8. Consultation

In accordance with the relevant guidelines, before submitting their application the Council consulted with all the relevant stakeholders in July 2018. A list of the consultees and responses is at Annex B. In addition to local councils the consultees included bus operators and motoring organisations. The Council is committed to fully informing the public of the proposed changes to the parking enforcement and they will be launching a comprehensive publicity programme prior to the proposed commencement date. This will include the use of their website, press releases and a general distribution of posters and leaflets.

On receipt of the Council's application, and in accordance with the relevant legislation, the Welsh Government consulted with Gwent Police and the Traffic Enforcement Centre. No objections were received.

9. Post implementation review

The effect of the Order will be monitored by way of an annual return from the Council to the Welsh Government. This will include the financial results of civil parking enforcement and any action the Council will take in respect of any deficit on the on-street parking account.

10. Summary

The Council, in collaboration with RCTCBC, will bear the costs of the proposals as detailed in the Costs paragraph 7a) above. The powers will enable the Council to adopt a more thorough and visible enforcement of

parking contraventions. By relieving the Gwent Police from such responsibilities this will free up their time to devote themselves to dealing with other criminal activities. The implementation of the Order is consistent with applications made by 19 other local authorities in Wales who have already achieved such powers.

ANNEX A

This Order applies to the County Borough and City of Newport with the exception of —

- (a) the length of the M4 Motorway within the County Borough and City, from the boundary with the City and County of Cardiff to the boundary with the County of Monmouthshire, including its exit and entry slip roads;
- (b) the length of the A48 Motorway within the County Borough and City, from the boundary with the City and County of Cardiff to the junction with the M4 Motorway;
- (c) the length of the A449 Trunk Road within the County Borough and City, from the junction with the M4 Motorway to the boundary with the County of Monmouthshire; and
- (d) the length of the A4042 Trunk Road within the County Borough and City, from the junction with the M4 Motorway to the boundary with the County Borough of Torfaen.
